Subject of Review: Using USDA's National Household Food Acquisition and Purchase Survey (FoodAPS) data, the authors construct an index (NIU) to summarize consumers' use of nutrition information. They use this index to explore whether there is a correlation between consumers' NIU and their acquisition of more-healthy food and examine how this correlation compares for food at home (FAH) and food away from home (FAFH).

Purpose of Review: The purpose of the review is to ensure the high-quality of the economic analysis, transparent explanation of methods, objective interpretation of results, and effective communication to the intended audience.
