Subject of Review:	This paper examines the impact of the U.S. Department of Agriculture's (USDA) release of its projections of annual corn output on the price of corn futures. The research tests if these output projections are the primary factor driving the response of the futures market and whether the accuracy of past projections influences market response to the current projection.
Purpose of Review:	The purpose of the review is to ensure the high-quality of the economic analysis, transparent explanation of methods, objective interpretation of results, and effective communication to the intended audience.
