OFFER THE STUDY BROCHURE

This study is about food in the United States. We are looking at the foods households get over the course of a week, in order to understand where households get food and how much they pay for food. This information will help the USDA improve its programs and ensure that all residents of the U.S. have access to a healthy diet at affordable prices.

The addresses we visit were scientifically selected to represent all households in the country. I am here to see if you are eligible and interested in participating.

Please accept this \$5 as a token of our appreciation for considering this important survey.

OFFER UNCONDITIONAL \$5 INCENTIVE

If your household is eligible and you participate you will receive \$100 or more for completing the survey activities.

I need to ask you some questions to find out if you are eligible for the survey. Eligibility is based on household size, program participation, and income. It will take less than 5 minutes to answer these questions.

Taking part is completely voluntary. We are required by law to use your information for statistical research only and to keep it confidential. Your responses will not have any effect on services you may receive or may apply for in the future.

Do you have any questions before we start?
